

Opticare® eye drop dispenser range

FP10 approved for doctors and nurse prescribers
Also available for retail purchase

AVAILABLE ON
PRESCRIPTION

Eye drop bottles are difficult to handle, aim and squeeze. The very young, the elderly and arthritis sufferers experience the most problems.

Doctors and nurses

Take control of eye drops in your surgery, clinic or ward

Over 70% of eye patients need a helping hand to access their medication and you can prescribe one. Opticare is that helping hand.

Take control of childrens' eye drops

Using Opticare can boost parent/child confidence.

Pharmacists

Take control of eye drops in medicine use reviews

Ask your local GPs and community nurses to prescribe the Opticare range.

Do you use eye drops?

Take control of your medication with Opticare

Opticare®
Eye drop dispensers

Take control of eye drops with a range of dispensers to suit everyone's needs

Opticare®

Suitable for the majority of people who struggle with eye drops. Opticare eye drop dispensers boost confidence and support independence.

AVAILABLE ON
PRESCRIPTION

Opticare
suitable for most
5ml – 15ml, round
or oval, plastic
eye drop bottles

- **Simple** – makes targeting and squeezing bottles easy
- **Grip sized** – shape and texture increases user confidence
- **Comfortable** – eye piece designed for comfort and safety
- **Generic** – use with most round and oval bottles
- **Accurate** – aims drops at a safe distance from the eye
- **Portable** – fits into a pocket or handbag
- **Durable** – designed for long term use

Opticare Arthro

The Opticare Arthro model offers help to people with severe arthritis and upper body mobility problems. With its extended arms and rotating eye piece users can regain control of their eye drops.

AVAILABLE ON
PRESCRIPTION

Available in two sizes
Arthro 5 (blue)
use with 2.5ml – 5ml
round/oval bottles
Arthro 10 (cream)
use with 10ml – 15ml
round/oval bottles

- **Leverage** – long arms squeeze the bottle with only light pressure
- **Choice** – instil drops whilst standing, sitting or lying down
- **Effective** – directs drops into the eye, not down the cheek
- **Versatile** – a rotating eye piece ensures personal comfort
- **Easy care** – wash in the dishwasher or with warm, soapy water
- **Economical** – renew the medication, not the dispenser
